### **24.553 Planning Applications**

Application No: 25/0790/FUL  
Location: Flat B, 58 East Budleigh Road, EX9 6EJ  
Proposal: Proposed home spa and garden room with sun deck  
Letters Received: None at the time observations were made  
Observations: This Council does not support this application. This proposal represents a reconfiguration of a previously refused application (REF: 24/1986/FUL) and must be considered in the context of the site's planning history and ongoing concerns.  
Overdevelopment and Cumulative Impact: There is a longstanding pattern of development on this site that has repeatedly exceeded the scope of previous approvals. What was originally a single dwelling has already been subdivided into two flats, and the garage has been converted into a holiday let. This has resulted in incremental overdevelopment which is inappropriate within the character of the residential area. The cumulative effect has led to an intensification of use far beyond that expected for a single residential plot. Refer to applications No: 24/0812/FUL and No. 24/1866/FUL 17/2026/FUL that have been approved previously.

**Change of Use – Unacknowledged Commercial Operation:** There is significant concern that a property on this site is operating as a commercial holiday let enterprise without appropriate acknowledgement or planning permission for such a change of use. If this is the case, it raises further issues regarding compliance and transparency. Councillors note that this appears to be a commercial operation in a residential area, which is inconsistent with local planning policy and has not been properly declared or assessed.

**Residential Amenity – Noise, Privacy, and Intrusion:** Numerous comments, including from neighbouring residents, express concern about loss of privacy, noise (especially during late evenings), and general disturbance inconsistent with residential use. The proposed use, whether explicitly stated or not, is likely to exacerbate these issues. The development is considered highly intrusive to adjacent properties and raises valid concerns about overlooking and overbearing impact.

**Trees, Ecology, and Site Character:** The site is home to mature trees and ecological features that may be at risk from continued development. These should be properly assessed and protected. There is also concern about the marking and usage of the driveway and curtilage area, which may not correspond accurately to the approved plans or lawful boundaries.

**Concerns Regarding Planning Transparency and Misrepresentation:** There is a history of discrepancies and lack of clarity in plans associated with this site. The current submission again lacks clarity and raises concerns that the development may not reflect what is ultimately delivered. Given the site's planning history, this undermines public trust and the authority's ability to enforce planning conditions.

**Conclusion:** Budleigh Salterton Town Council strongly urges the Local Planning Authority to review the planning history in full, consider the cumulative and commercial impact, and address the material concerns raised:

- Overdevelopment
- Loss of residential amenity (noise, privacy, overbearing)
- Inappropriate commercial use
- Trees and ecology
- Lack of clarity and transparency in planning documents.
